Hello,

School Pupil Follow-Up

My name is Jo Holmes and I will be providing career support from Skills Development Scotland to pupils from Wester Hailes Education Centre along with my colleagues Gerry Devenney and Kyle Hamilton. I hope you and your families are keeping safe and well during this pandemic.

During this time, like pupils, Career Advisers are unable to attend school, but we continue working from home, for us this is likely to be until at least October. With this in mind Skills Development Scotland still want to support pupils to develop their Career Management Skills to help them make career decisions that are right for them, as they move through school and eventually leave.

I may be contacting your young person in the senior part of the school between now and October (including the summer holiday) to discuss their plans for the year ahead although you or your young person can also contact us at a time that suits you by calling our local Edinburgh office on 0131 718 2040.

Thank you for your time and I look forward to working with your young person in the year ahead,

Jo Holmes
Careers Adviser
Skills Development Scotland
